# Infant Plans Notes

take note 

## Supplies Needed

Infant Plans are meant to give some structure and fun to a baby's day, while providing experiences to stimulate growth and learning. They can be used at home, in a daycare, in a child care, church, or wherever there are babies. I have provided activities, books, songs, etc. centered around a theme for the week. Depending on the age and ability of the infants you care for, you can adapt the plans to work for you. These plans can be expanded by adding more verses to the suggested songs and repeating favorite activities.
